Instructor Spotlight: Daniel J. Tauriello, Jr.

(PEC Safety Newsletter January 2019)

Daniel J. Tauriello, Jr. is an instructor with Assured Partners of Colorado. In his 8 years as a PEC Authorized Instructor, he has taught over 400 PEC classes.

Daniel is a second-generation PEC Instructor and continues the family business. His father, Daniel Tauriello, Sr., taught PEC courses for over 14 years with Omni Safety Consulting. Daniel said his father was invaluable in his introduction to the safety industry. His time working with his father gave him the skills to become the best instructor possible.

Daniel is looking forward to continuing his father's legacy as a PEC Authorized Instructor. As an instructor, Daniel is very pleased with PEC's recent switch to the Electronic Roster Entry (ERE), which not only gets workers their credentials in five days or less, but also significantly decreases your administrative efforts by reducing valuable time spent on paperwork, copies, and mailing.
